NOT A PRODUCT

- Ticket, ID, and the vehicle pass sorted. Not a product. Do this before you shop for goggles.

- Ask camp what they already provide. Shade, kitchen, power, and toilets change your list. Get a direct answer.

- Prescriptions, in the bottles they came in. Plus the personal supplies you already use. The playa does not stock them.

- Closed-toe shoes you can bike in. The ground is rough, hot, and full of things you do not want in a sandal.

- A spare car key, not on the same ring. Hide one. Carry one. Locking the only key in the car is a classic.

- If you are flying, rent the bike before the gate. Reno, Sparks, Nixon, or Gerlach. Paid rental inside the city is not allowed. <https://burnersupply.com/bikes>

- If the RV or the truck is a rental, say where it is going. Get the playa and the cleaning fee in writing. There is no dump station in the city. <https://burnersupply.com/rentals>

- A clean layer over the bed. A fitted sheet, or a pillowcase for each day. Peel the dusty one off.

- A pocket tin for butts, if you smoke. Ash is moop. A mint tin that closes is the ashtray.
